

WATER SHUTDOWN NOTICE

THURS & FRI – August 16TH and 17th

This notice is to inform you that there is a water shutdown scheduled for Thursday and Friday, August 16th and 17th. The shutdown will be for the 2018 Construction project and due to the location of water infrastructure this will affect your property. This shutdown is for cutting in water valves. Please see the information below for details. This scheduled water shutdown is weather dependent. The times shown are estimates, and the duration of the shutdown may need to be extended due to conflicts not known prior to excavations.

Should you have any questions please call the project contacts listed below.

Dates: Thursday, August 16th and Friday, August 17th

From: **8:00 AM To 4:30 PM**

Project contacts: *Adam Martinson, Construction Observer*
651-247-2273

Dan Boyum, City Engineer
651-775-5098

Water Shutdown Reminders:

- Whenever a water shutdown takes place, it is recommended that you run **cold** water from a faucet in your home or business, preferably a basement faucet or outside faucet, until potential discoloration in the water is gone.
- Make sure everyone in your home or business knows about the shutdown, and remember to turn off all faucets during the shutdown.
